ax-Alderman Wm. J. Brisley of the Ninth Ward, who bas been of late years a prominent and influent member of the Mozart-Hall faction of our city D mey, a firm supporter and follower of "H" Excelkney," and never anything but a Jack or ian Demoerat, addressed to the Mayor the fol wing letter, in which he avows his determination to, support Lincoln and Hamlin and the Republican State ticket in the present campaign. This we intimated in the report of the proceedings of the last Moza A-Hall General Committee meeting published in our columns, when we gave a copy of Ald. Brisley's, preliminary letter, withdrawing from the Mozart Hall Committee, of which de was a member :

NEW-YORK, Sept. 13, 1860.

The Hon. Fernal do Wood—Dear Sir: As this appears to be the veried for writing letters by statesmen, Senators, and politiciaus, in regard to their course of action in the coming Presidential campaign, I also take the liberty as a Mechanic and Co-worker with your Honor in the Mozart Hall organization from its commencement up to the date of the assembling of the National Democratic Convention at the City of Chareston, S. C., to define my position. Since the actioernment of that Convention, I have taken very it is interest in the success of the Mozart Hall organization. This must have been apparent to you and many of its members.

I was tune indifferent, because I considered that the objects for which the organization was formed, had NEW-YORK, Sept. 13, 1860.

objects for which the organization was formed, had

objects for which the organization was formed; as ceased to exist, viz:

First: To break up the close corporation of Tammany Hall, as controlled by its Sachems, who deprive the nurses from meeting therein without their permission, and refuse the use of the General Committee Room to the true representatives of the people, whenever those representatives do not suit the cique known as the "Tammany Sachems."

Second: The election of your Honor to the office of Chief Muristrate of this city without the aid of Tam-

Chief Magistrate of this city without the aid of Tam-

Chief Magistrate of this city without the aid of Tammany Hall.

The result of the election on the 6th day of December last, as certified by the Inspectors, and the returns canvassed by the Board of City Canvassers, disposed of the recond purposes. You were elected Mayor by a kandsome plurality in the face of a powerful and well-cremited opposition.

As to the first object, your Honor, in my opinion, has virtually disposed of that, by your singular somerset in the Mozart Hall General Committee, in the indoment of Stephen A. Douglas for President, and the Seat Central Committee of which Dean Richmond was Chairman. I have used the term "singular somer to because many of your triends so regarded it is the time. In one of your speeches during the city mapping last Fall, and those made by you in Connecticul and at Charleston, your friends and the personal admirers of your independent course, were led to suppose that you would be the last man to dance (Jim Crow) to the time of the Albany Rogency, as played by Messre. Casady, Cagger, and Renacud. Your indomement of those parties destroyed the prestige of the Mozart Hall organization. The next turn of the cards will prove I am correct. I cannot, therefore, consider myelf any longer a member of the organization.

Having finished this part of the the subject, I shall now give you and my friends my reasons for the course I have concluded to adopt during this Presidential campaign: For more than a quarter of a century I have been a Democrat. During that time I have always cast my vote for the "Straight Ticket," indored by Tammany Hall, with the exception of last

tary I have been a Democrat. During that time I have always cast my vote for the "Straight Ticket," indered by Tan.many Hall, with the exception of last Fall, when I voted for yourself, Bronson, and Lynch. But, Sir, when I look back a few years, and see what the Democratic party was, and those who controlled its movements then, and compare them with those who control it at the present time, I am led to the following reflections and comparisons: In former years, the nomines of the National Democratic party for President of these United States, consented to become the manination: the work of advocating hin election on the numination: the work of advocating hin election on the studies and in the newspapers was left to his friends and nomination; the work of advocating his election on the stump and in the newspapers was left to his friends and partisans. How differently now. We have the novel, may I not more truthfully say, disgraceful spectacle of two so-called candidates of the National Democratic party, making stump speeches through the country, bidding for votes, as if they were county or ward positicians seeking an election to some petty office.

Sir, in my opinion these candidates are not only disgracing themselves, but are repudiating the honorable examples set them by the founders of the Republic. The conduct of Thomas Jefferson, the acknowledged founder of the Democratic party, should teach them better things.

better things.

But, Sir, the present corrupt state of the party may also be traced to other causes, that have been gradually working its ruin. The employment of rowdies and sighting men in the large cities (particularly this city),

fighting men in the large cities (particularly this city), for the purpose of carrying primary elections, so that chiques and muscle have be some the controlling power, to the exclusion of the great body of the people, has contributed greatly to the destruction of the party.

Again, the Administration of James Buchanan has had a powerful influence against the perpetuation of the party. The White House has been made the political headquarters, where Councy and Ward cliques have assembled; while the President in person has precided over their local contention, deciding which were the regular organizations. And, finally, to wind the faces, a party of men with a band of music up the farce, a party of men with a band of music march to the White House, where the President delivers a political harangue, which had been previously prepared, in which he said that he was the last of a race of men who had stood firm in the support of the Union. He might have told us at the same time that he was the first President who had disgraced the President who had stood firm in the support of the Union.

Union. He might have told us at the same time that he was the first President who had disgraced the Presidential Manston by making it the political rendezvous for party cliques and stump speeches.

Sir, if Democracy has come to this, I cannot be a Democrat of that stamp. For should I, in the coming campaign, support either Donglas or Breckinridge, I would be indorsing what I conscientiously believe to be degrading and unbecoming in a Presidential candidate, beside aiding to build up an oligarchy which is sapping the vitals of our Republic, and establishing a despot sm more destructive of liberty than any of the despoic powers of Europe. As to Mr. Douglas, I have other reasons for not supporting him. I look upon him as the cause of the present agitation of the Slavery question, and hold him responsible for it. In my opinion, he has been working from the beginning for his own political advancement, and nothing else. I arrive at this conclusion, from the following circumstances which have occurred since the Compromise of 1850: Stephen A. Douglas, by the introduction of his Kansas Nebraska bill which led to the repeal of the Missouri Compromise, respensed the Slavery agitation. The responsibility of this act cannot be placed upon William H. Seward; but when Douglas nad thrown down the gauntlet, Seward and others took it up, and from this the organization of the Republican party soon followed. Douglas fought boldly and desperately for his adopted child, up to the Presidential election of 1856. He then discovered that the popular sentiment was in favor of Freedom, and sgainst his policy. He therefore abandoned his first position, and has been endeavoring ever since to make his platform suit the people north of Mason and Dixon's line, in order to secure votes for the Presidency. How clearly is this manifested in his speeches at the present time, and people north of Mason and Dixon's line, in order to secure votes for the Presidency. How clearly is this manifested in his speeches at the present time, and during his campaign in Illinois against Lincoln. Senator Henjamin of Louisiana, in a speech made in the Senate Chamber on the 23d of May last, shows the inconsistency and want of sincerity of Mr. Douglas. He gives in full the questions proposed by Douglas to Lincoln, which were answered manfully and without convice or the counter operations. equivocation on every point, and the counter questions of Lincoln to Dongias, which Mr. Dongias answered evasively, and only in part. Senator Benjamin virtually says that the election of Lincoln would be far preferable to that of Douglas.

I stated to a number of Friends during the Douglas and Lincoln contest in 1858, that, in the event of Douglas and Seward being the rival candidates for President in 1860, I should vote for Seward, believing him to be honest and consistent in his opinious throughout his entire public career, and that the affairs and interests of the nation would be safer in his hands. Had Mr. Seward been the Republican nominee, no person would have entered with more zeal in his cause, under the present circumstances, than myse f. I shall, however, do what I think is next best—give my support to Abraham Lincoln, knowing him to be perfectly sound on all national issues, and feeling that with his election the bue and cry of the "disaptation of the the hue and cry of the "dissolution of the Union," as political capital for selfish and unprincipled demagogues, will be heard no more. I would have made this announcement more. I would have made this announcement as to my future course, to you and my friends, some time since, had the party been united on Mr. Douglas. It seemed, however, to be scattered into so many fragments in our State, that I did not wish to have the appearance of deserting a falling friend. But the "sign of the times" show that the leading Democrats of this State are bargaining and trading for a Mongret Union Electoral ticket, for the purpose of making this State she hattle ground, and by preventing the election of Mr. the battle ground, and by preventing the election of Mr. Lincoln by the people, give the choice to the House of Representatives. I never have voted for any candidate of the Dark-Lantern order, always believing it to be sati-American, according to the true intent of the framers of our Constitution, nor can I see how any Democrat who voted against it in 1854 and '55, when it figured so extensively in this and other cities, can in 1800 cast his vote in favor of this Union Dark-Lantern Electoral ticket, although whitewashed by the late Democratic State Convention.

With this statement of my views, I am very respectfully yours WILLIAM J. BRISLEY.

FUNERAL OF THE LATE W. P. PAULSCRAFT.-The feneral of W. P. Paulscraft, late patrolman of the Ninth Police Procinct took place yesterday afternoon,

Den Mone Republican Gain -On Saturday last To sentire force of the Minth Precinct attended the funeral, dressed in fell uniform, except the baten Columbia Hock and Ladder Company No. 14 also formed a part of the procession. The funeral services were performed by Dr. Adams at the Antioch Baptist Church. The remains were conveyed to Greenwood Cemetery for burial.

NEW-YORK MEDICAL COLLEGE AND CHARITY HOS-PITAL.-At a meeting of the Board of Trustees, on Saturday evening, the Hon. Fernando Wood occupied the chair, and Prof Doremus acted as Secretary. The Board, after disposing of the usual matters of business, elected his Excellency Governor Morgan, President of the Board, who was conducted to the chair; Mayor Wood being obliged to retire by a previous engagement, after expressing the deep interest he felt in the institu tion, and promising to visit the Hospital in the morning. The Board having heard from Prof. Doremus, the action of the faculty in relation to founding a Charity Hospital and appropriating a large portion of the College building to the purpose, which had been fitted up and was now in readiness for the reception of the patients, warmly approved the object and appointed a Committee to raise funds for the Charity Hospital, by soliciting subscriptions and donations from the benevolent. A number of liberal donations were reported from Messrs. Doremus and Nixon, Mr. Haughwout, Chancellor Busteed, and other gentlemen, and the Board then adjourned to inspect the wards of the Char ty Hospital and the museum, laboratory, and leature rooms of the College, with all of which they expressed much gratification.

The regular daily lectures and cliniques of the preiminary of the college will commence on Monday, the 17th, at 11 o'clock, with a lecture on Amputation, by Professor Carnochan, and at 12 o'clock by a lecture from Prof. Reese, to which the profession, students of medicine, and the public generally are invited.

LEBANON AND THE STRIAMS .- The Rev. Dr. Thompson delivered a discourse last evening at the Broadway Tabernac'e, on the Social and Religious Bearing of the Massacr's in Lebanon. The history and present condition of the Maronites and Druses were given. They were not separate races, but separate sects. The Maronities derived their name from a monk named John Maron, and have always been the most bitter opposers of missionaries; and have done all in their power to of missionaries; and have done all in their power to prevent the Drusses receiving the Christian religion; and Dr. Thompson said, it should be most distinctly understood that the Maronites, who now claim our sympathy, have no special claim upon our feelings as Christians. 28 schools had been destroyed, 560 churches demolished, 42 convents burned, and 360 villages laid waste. One peculiarity in the belief of the Druses is, that of the preëxistence of the soul. They hold that Druses existed in a pure state and fell; also, that a fixed number of soule were created, and that when they shall all have been embodied affairs will wind up. they shall all have been embodied affairs will wind up.

Taey refuse to receive any converts from outside to
their faith. They occupy from Beyon to Fyre and back
to Damassons, and are computed to number about 100 000.

It was shown that the Drusse were not more cruel than the other party, and the worst atroctties were not committed by the Druses, but by Mussulman and Turk-ish soldiers. Dr. Thompson read a letter dated Aug. 1, received by him on Saturday from S. H. Calhoun, a missionary resident at Abeiah, among the Druses, from which it appears that the Maronites are the more numerous, but the Druses the more warlike people, and that the present contest was entered into with the determination on both sides to make thorough work of it. The greatest guilt lay with the Turki-h officials.

They could have easily put down the outbreak. The Central Government at Constantinople, however, does no sympathize with this movement.

Dr. Thompson drew a comparison between the Eastern Druses and the Druses that were connected with the system of American Slavery, and showed that with the system of American Slavery, and showed that the possessors of unjust power were everywhere cruel as Druees. This very year what barbarities had been committed by the Druees of Texas! Before we speak of intervention with the affairs of Syria by force on the part of this nation, let us see whether this Government is willing to protect its own citizens in its own Territories. We are not to volunteer to be God's messenger of vengeance. Why should we hate Druees any more than slave-masters? We should hate systems of iniquity, and seek their over-hrow, but the men themselves we should pity, we should love with Christ's love, and

we should pity, we should love with Christ's love, and seek to convert and save them.

The above presents but a very few of the points of this discourse, which was nearly two hours in delivery. At the conclusion a contribution was taken up in behalf of the sufferers now lying at Beyrout.

A BOLD RODBERY.—On Friday afternoon the law office of Mr. Wm. H. Jelliffe, was entered during the temporary absence of the cierk and robbed of an overpoat valued at \$25. The clerk had been absent less than five minutes.

BROOKLYN ITEMS.

AGRICULTURAL .- There will be a grand fair of the Queens County Agricultural Society at Jamaica, on Wednesday, September 19, 1860. A great show of horses, cattle, farm implements and products may be expected. The cars leave South Ferry, Brooklyn, at 10 and 12 o'clock.

Union League Parade and Meeting .- On Friday night a meeting of the conservative men of the Eastern District was held at the house of Mr. Jacob Morris, corner of Bushwick and Flushing avenues. The meeting was addressed by Mr. C. C. Eagan, Mr. Vanderye, and Col Wm. Conselyea. A Union glee-club enlivened the exercises with some songs. On the same evening the Union League No. 3 of the Eastern District, comprising 150 members, turned out for parade in uniforn, with red glazed capes, Zonave cape, and a red lantern.

THE FAT-BOILING NUISANCE.-Frederick Messler was brought before Jastice Cornwell on Saturday, on the charge of maintaining a nuisance on his premises by boiling fat. The furnace was in the cellar of his residence, in the vicinity of Lafavette and Reed avenues. The air in the place was so dense that one of the officers was unable to enter. The accused was fined \$500, but on the promise of discontinuing the business, the Mayor remitted the penalty.

INCREASE IN CONPENSATION .- The Union Ferry Company bave increased the salaries of their employees, taking effect on Saturday, Sept. 15. Firemen's wages increased from \$37 to \$10 per month; deck hands from \$32 to \$35 per month; pilots from \$65 to \$70, and other employees at the rate of \$3 per month over their former wages. The engineers receive \$50 per month. Their salaries remain stationary.

ARRESTED FOR DRUNKENNESS .- Some little excitement was created yesterday in consequence of a report that the pugilist John C. Heenan had been arrested for drunkenness. It appears that a drunken man was taken into custody at the South Ferry by Officer Foran. When brought before the Police Captain he stated his name to be John C. Heenan, and it was so recorded on the returns. This Heenan is 28 years of age, a cooper by trade, married and an Irishman by birth. He was locked up.

THE FULTON AVENUE ROUTE.-The Brooklyn City Railroad Company have made arrangements to start the cars from East New-York for the ferry at 51 o'clock each morning on and after Wednesday next.

THE CITY RAILROAD OFFICE,-The City Railroad Company have removed their principal office into the new building recently erected on the corner of Fulton and Furman streets. The building formerly occupied by the Company is being fitted up for a hotel for the accommodation of sea captains.

FIRE DEPARTMENT LECTURES,-The Trustees of the Jersey City Fire Department Fund, at a meeting on Friday evening, appointed the following-named gentlemen a Committee to make arrang-ments for a course of lectures the ensuing Winter: C. M. Hankins, F. P. Budden, James R. Tilley, James M. Clark, Patrick H. Nugent, John B. Hait, and Samuel A. French.

CHURCH DEDICATION .- A new church edifice in Hudson City, known as the Palisade M. E. Church, situated on Palisade avenue, was yesterday dedicated to divine worship. The morning service was conducted by the Rev. G. Lucas of Jersey City, and was attended by a large, attentive, and apparently deeply interested congregation. In the afternoon the sulpit was occupied by the Rev. J. Poisal of New-York, and in the evening by the Rev. J. C. Wheeler, who, we believe, is to have the pastoral charge of the new church. This new place of worship is a neat, well-built, and (for the locality) a commodious building, situated a short distance back from the avenue which gives it its name, in what is now a sparse, but, as we are assured, a rapidlygrowing neighborhood, and will doubtless supply a want long felt in that locality. It will be open regularly henceforth, every Sabbath, for religious worship.

MOVEMENTS OF THE UNION MEN .- A meeting of the National Union Association of Jersey City, was held on Saturday night at No. 43 Montgomery street, to make arrangements to attend the great Union demonstration in New-York to-night.

MILITARY PARADE, -Major-Gen. Wright has ordered a parade of the 2d Division of the New-Jersey S ate Militia to take place on Thursday, the 27th inst. The place selected for the parade is on the meadow between Hoboken and Jersey City, near the rollingmill. The line will be formed at 10 a.m. The division will be inspected in the forenoon, and the troops will be reviewed at 3 p. m.

LAW INTELLIGENCE.

UNITED STATES CIRCUIT COURT—SEPT. 15.—Before
Justice Nelson.

QUESTION UNDER THE REVENUE LAWS.

James Knight et al. agt. Augustus Scheil, Collector, &c.
This case came on for a hearing on motion of the
District Attorney, for a new trial upon a bill of exceptions. The
plaintiff had recovered a judgment against the defendant, at the
last September term of this Court, for the amount of certain daties which had been claimed by the Collector upon barrels which
the plaintiff had manofactured at Newburgh, in this State, and
shipped impty from the port of New-York to Cuba, and there
is led with molasses, and brought them back so filled, with haties had been paid by the plaintiffs at der protest. The act of
Congress exempts from duty articles which are the growth, product or manufacture of this country, which are exported therefrom and brought back "in the same condition."

The question was whether the "condition" of the barrels was
changed by filling them with molasses, within the meaning of the
act. It was suggested in the opening by the District Attorney
that the Government desired that the question might be definiteity settled at the earliest possible day, in order that they might
regulate their conduct accordingly, and that a very large sum of
money in the aggregate would be involved in the decition; and
as this was a leading case—here being many mo e of a similar
character to follow—that it was desirable to have the endison of

money in the agregate would be involved in the decision; and as this was a leading case—there being many mo e of a similar character to follow—that it was desirable to have the opinion of the Supreme Court on the question — it was therefore suggested by the Court that the question had better be presented to the Supreme Court upon a certificate of a division of opinion, which course was assented to by the Coursel on both sides, and the question will therefore go directly to the Supreme Court at Washington for arguement. 1 T. Williams, for plaintiff; J. I. Roosevelt, for the defendant.

Mabey proceeded to the wreck on Thursday, and found her bottom up on the beach of Cutchoque. Her spars, sails, and rigging have been partially saved in a damaged state; there also has been saved 49 bills, fish, 71 do, and 122 boxes herring, 260 bills laths, and a quantity of leose laths. The buill and insterials, as far as saved, will be sold at anction on the beach on Tuesday. Sept. 18, at 2 p. in.

Savannast, Sept 12.—The steamship Chesapeake lays well up on the beach, and thus far makes very little water; one of her pumps accept her free without any difficulty. From present appearances very little damage to the cargo is anticipated, and if avored with a few days favorable weather, the most of her cargo will be lightered to the city. The schr. Levant is now loading, and will probably be up in the morting. The cargo has been scattered along the coast for the space of ten miles. The inhabitants state that the gale was one of the moss severe known for some years. The cargo of the Titton consisted of 370 bbls. mackerel, 294 do herring, 300 boxes herring, 62 half bbls. mackerel, 298,690 laths.

The R. L. Mahey also remorts that the brig Kossuth, Sotton,

238.099 laths.

The R L Mabey also reports that the brig Kossuth, Suttor from Maine, with spars, bound to New-York, was partly capsize during the same gale and near the same place; out away foremate ease her, and let go both anchors, when she rode out the gale with loss of both hawse pipes and maintopmast.
